Acknowledgment

We sincerely thank you, dear donor, for your invaluable support towards Project Sapno ki Udaan, our initiative to transform the lives of street children through quality education and holistic development.

Your generosity and encouragement enable us to provide these children with the tools and opportunities they need to dream big and achieve a brighter future.

Your support has a profound impact on their journey, ensuring they have access to education, nutrition, and life skills that empower them to rise above their challenges.

Together, we are making a lasting difference and breaking the cycle of poverty and neglect.

With heartfelt gratitude,
Rays of Life Foundation Team .

**THANK
YOU!**

Impact Report: Project Sapno ki Udaan

Project Sapno ki Udaan, is an initiative by Rays of Life Foundation, is dedicated to providing education and holistic support to underserved children.

Since its inception, the project has transformed the lives of countless children by fostering a pathway to quality education, skill development, and a brighter future.

This report highlights the progress, achievements, and ongoing impact of the project, made possible by the support of our donors and stakeholders.

Project Overview

Launch Date:

The project Sapno Ki Udaan was launched on 1st September 2024

Mission:

To empower underserved children through access to education, skill-building, and mentorship.

Target Beneficiaries:

Children from underprivileged communities lacking access to quality education.

Primary Activities :

- Empowering the children through education
- Nutritional Support
- Hygiene and
- Life Skill Training

Outcome

Increased Enrollment:

From 5 children at the start, we now have 16 children enrolled. This growth is a direct result of the efforts made to engage with the local community and raise awareness about the importance of education.

Improved Hygiene and Health Practices:

The children are now more mindful of their hygiene and health. This has positively impacted their overall well-being and has contributed to a healthier and happier learning environment.

Academic Achievement:

All children have made significant strides in their academic development. They are not only learning the basics of education but also developing skills in problem-solving and critical thinking. We are seeing marked improvements in their enthusiasm and ability to grasp new concepts.

Observations

Increased Parental Engagement:

One of the most notable observations over the past few months is the shift in parental attitudes toward education.

Children's Behavior and Enthusiasm:

They eagerly look forward to attending every evening, displaying a newfound enthusiasm for learning.

Improved Hygiene and Health Practices:

There is a noticeable improvement in their hygiene habits.

Academic Progress:

They are developing a positive attitude towards learning and are becoming more confident in their abilities.

Case Studies

Zeenath's Journey to Hope

Zeenath, an 8-year-old girl living on the streets of Mira Bhayandar with her single mother, faced immense challenges, including poverty and lack of education. Despite their struggles, her curiosity and eagerness to learn stood out. When Rays of Life Foundation launched an evening school under Project Sapno Ki Udaan, Zeenath eagerly joined, quickly excelling in basic literacy and storytelling. The program not only nurtured her academic growth but also provided nutrition, hygiene, and a safe environment. Today, Zeenath dreams of becoming a teacher, symbolizing how education can transform lives and offer hope for a brighter future.

Viraj's Path to Resilience

After losing both parents, 10-year-old Viraj was lovingly taken in by his aunt in Mira Bhayandar. Though she cared deeply for him, financial struggles made it difficult to focus on his education. The trauma of his loss left Viraj withdrawn, despite his natural curiosity. When Rays of Life Foundation launched its evening school under Project Sapno Ki Udaan, Viraj found a lifeline. With access to education, emotional support, and a nurturing environment, he blossomed, excelling in mathematics and regaining his confidence. Today, he dreams of becoming an engineer, showcasing the power of compassion and opportunity to transform lives.

Financial Summary

Funds Raised: Rs.3,00,100

Expenditure Breakdown:

Education sponsorships: Rs.1,72,064 (67%)

Program operations: Rs.67,730 (26%)

Health and nutrition: Rs.10,986 (5%)

Administration: Rs.5,253 (2%)

Total Expenditure: Rs.2,56,033 (100%)

Remaining Funds: Rs.44,067, earmarked for expansion.

Impact

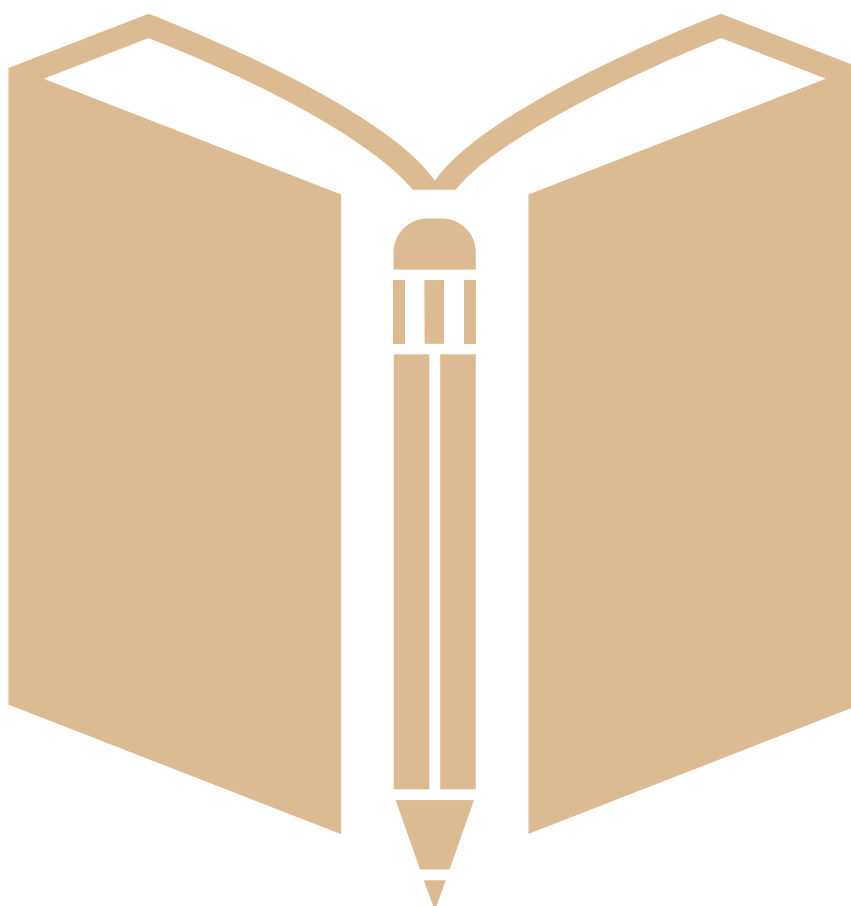

The past three months have been an incredible journey of growth, both for the children and the Rays of Life Foundation team.

The changes we have seen in the children—both in terms of their academic progress and personal development—are a testament to the power of education and community involvement.

With the continued support of parents, the community, and our dedicated team, we are confident that these children will continue to thrive and achieve their dreams.

We look forward to expanding our initiatives, enhancing the support we provide, and making a lasting impact on the lives of these children, empowering them to rise above their circumstances and build a better future.

Future Initiatives

Expanding the Curriculum:

We plan to introduce more hands-on learning activities that stimulate problem-solving and teamwork among the children.

Strengthening Parental Engagement:

- We will continue to work closely with parents, providing them with tools and resources to better support their children's education at home.
- Parent-teacher meetings will be organized regularly to keep parents informed about their children's progress and needs.

Increasing Enrollment:

- We aim to increase the number of students enrolled in the school to 40 by the end of the next academic term.
- Outreach programs and local awareness campaigns will be conducted to attract more children to the school.

ENROLL

Testimonials

"Seeing my child excited to learn and grow has been a dream come true. Thanks to Project Sapno ki Udaan, he now comes home with newfound confidence and a smile that lights up our lives. This initiative has not only given her an education but also hope for a brighter future. I'm forever grateful to the Rays of Life Foundation for making this possible."

Parent of Sapno Ki Udaan Student

Watching the transformation in these children has been one of the most rewarding experiences of my life. At Project Sapno ki Udaan, we see children who once struggled to dream now walking with confidence, eager to learn and explore their potential.

Each smile, every 'thank you,' and the spark of curiosity in their eyes remind us why we do what we do. It's not just about education—it's about giving them hope, dignity, and the tools to create a brighter future. Being part of this journey is truly a privilege
