

RAYS OF LIFE
FOUNDATION

Quarterly Impact Report

October-December 2025 | Vol. 05

Project Sapno Ki Udaan
Nurturing dreams, empowering lives.

"What began as a small step with the enrollment of a single child has now grown into a movement of hope, transforming the lives of children from underprivileged and migrant families."

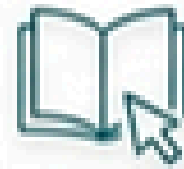

From a Single Step to a Movement of Hope

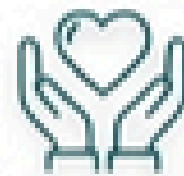

We are delighted to share the heartwarming progress of Project Sapno ki Udaan. This quarter has been defined by three key themes:

Transformation: Across all activities, our children are not just studying; they are enjoying, exploring, and discovering their potential.

New Horizons: The launch of our Story Library and Computer Classes has opened a new world of imagination. It has been beautiful to watch them pick their favorite books and use a computer for the first time with wide smiles.

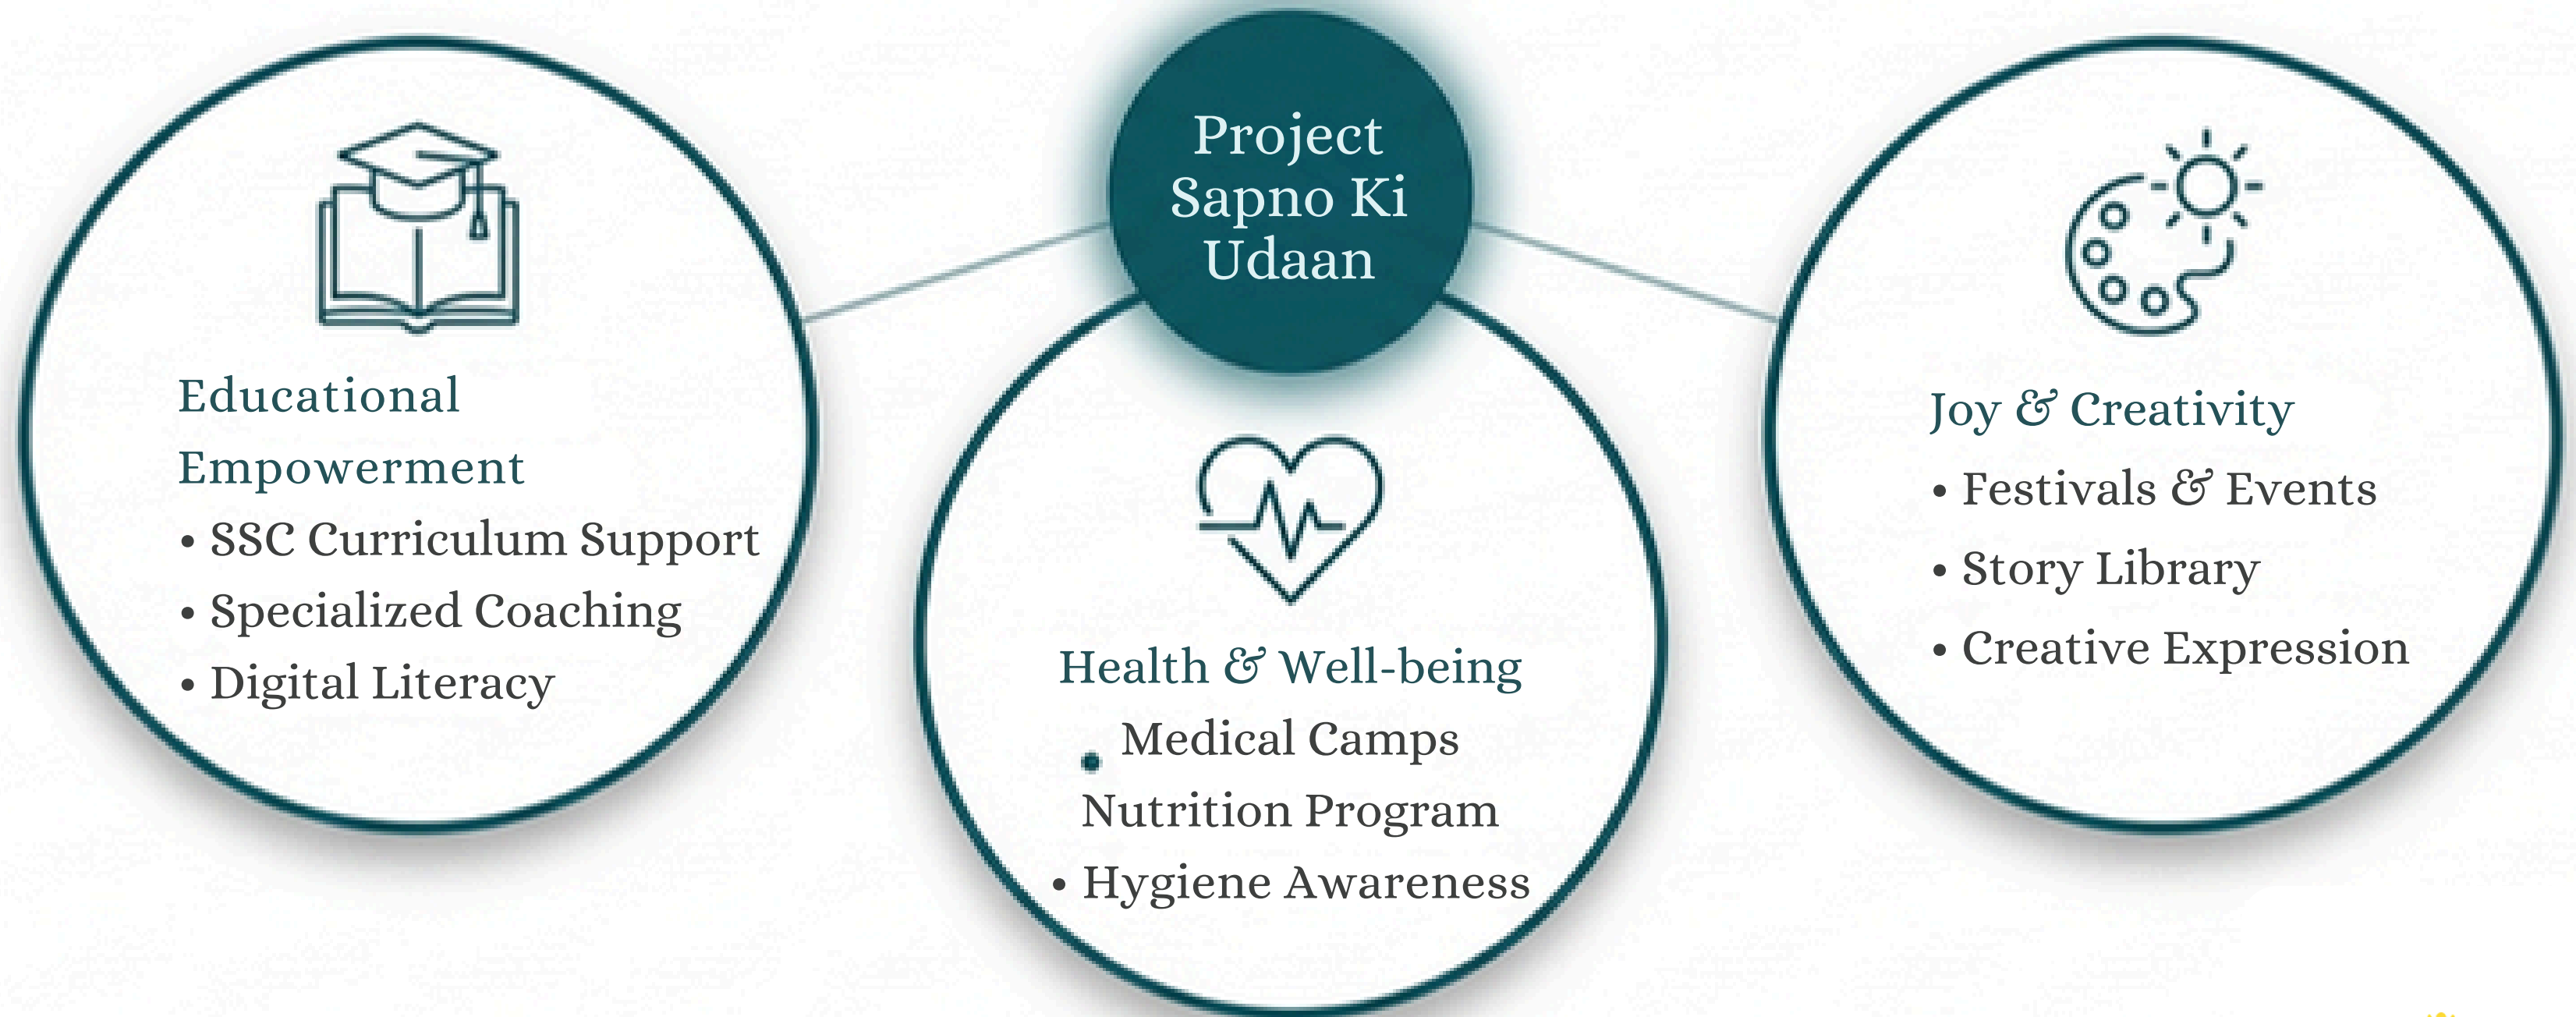

Gratitude: This journey is fueled by your unwavering support. Your contributions empower us to create lasting impact-one child at a time.

Warm regards,
Sundar Iyer

Director, Rays of Life Foundation

A Holistic Ecosystem for Child Development

We believe meaningful change begins when care, opportunity, and community come together.

Educational Empowerment: Bridging the Digital Divide Launch of the Computer Learning Program

The Initiative: We have introduced computer classes to equip children with essential digital skills that are increasingly important in today's world.

The Need: Many of our students come from underprivileged backgrounds with limited prior access to technology.

The Progress: Students are learning basic operations, exploring simple applications, and gradually developing digital confidence.

The Impact: The excitement on their faces as they learn something new each day truly reflects the impact of this initiative. We are opening new doors for future opportunities.

Educational Empowerment: Academic Excellence & Coaching

Core Curriculum Support

We are committed to providing structured SSC curriculum learning focusing on Primary to Secondary classes (1st to 11th). Our emphasis ranges from basic literacy to essential numeracy skills.

Targeted 10th-Grade Support

To support board exam preparation, we have launched specialized coaching:

-  Expert Faculty: Appointment of experienced Maths and Physics teachers.
-  Personalized Training: Sessions focus on concept clearing and strengthening core subjects.
-  Individual Attention: Ensuring every student progresses with confidence towards a successful future.

Cultivating Imagination: The Story Library

The Inauguration

The atmosphere was filled with excitement as we cut the ribbon on our new Story Books Library. For many children, this was the first time they held a storybook of their own.

Little Readers 📖

Through our 'Story Reading Day', children explore engaging books, discover new characters, and build reading habits. The library has quickly become a corner of creativity, adventure, and joy.

Health & Well-being: Professional Medical Care

Holistic Care

We believe in providing care that goes beyond education. This quarter, we organized a special medical camp focused on Eye Screening and Dental Examinations.

Partners in Impact

Conducted by compassionate healthcare professionals, the camp helped in the early detection of health concerns.

- ❖ Partner: Bhaktivedanta Hospital & Research Institute
- ❖ Supported by: Tata Capital

Health & Well-being: Nutrition & Hygiene

Spreading Smiles: Nutrition Program

We provide daily wholesome, nutritious meals to ensure our students are active, healthy, and ready to learn. To celebrate Children's Day, we arranged a special lunch at Banana Leaf (Fine Veg Dining). For many migrant families, this was a rare and joyful treat that brought immense happiness.

Hygiene Awareness

Alongside nutrition, we place a strong emphasis on daily hygiene practices.

- Handwashing protocols
- Basic health awareness sessions
- Personal hygiene education for all students

Celebrating Childhood: Community & Creativity

Diwali with Rotaract Club
Partnering with the Rotaract Club of Thakur Village, we hosted a vibrant diya painting competition. The Club also generously donated the new bookshelf.

Creative Expression Day
We believe joy is a metric of success. During Creative Expression Day, children drew whatever they loved, boosting confidence and filling the room with colour and imagination.

Q4 Impact Dashboard

By The Numbers

75%

School Attendance
(Consistency achieved)

Class 1-11

SSC Curriculum Learning
Established.

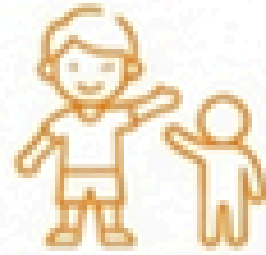

Health Screenings
Completed for all
students.

Observations of Change

Visible Transformation

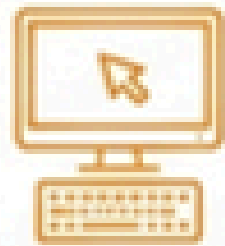

- Engagement: Regular attendance and engagement have visibly improved.
- Confidence: Children are becoming independent and resilient through life skills sessions.
- Skills: Students have grasped fundamentals of literacy/numeracy and are making steady progress.
- Hygiene: Awareness of personal hygiene has successfully been imparted.

The Road Ahead: Plan for Next Quarter

Step 1: Enrollment

Identify and enroll more street children into the project.

Step 2: Advanced Skills

Expand the computer program to include typing skills and basic computer literacy.

Step 3: Creativity

Introduce interactive storytelling, creative writing, painting, and Art & Craft sessions.

Step 4: Career Guidance

Launch career counselling to help older children understand their interests and future paths.

Thank you for helping them fly.

With your continued encouragement, we can reach more children,
help them dream bigger, and thrive with confidence.
